

CLEARVIEW

SHELF STOCK MANAGEMENT

Now your product display can be perfectly merchandised every time with the CLEARVIEW system.

The CLEARVIEW system allows you to easily and quickly maintain a fully merchandised presentation on all shelves. The system is visually unobtrusive, providing a stylish aesthetic solution that keeps your stock where it should be and also matches up to the

quality of finish demanded by major store groups. Ease of placement, ease of use and speed of staff operation are important in generating additional sales – the CLEARVIEW System delivers all three.

Expandable length
Bottle Cradle caters for all standard sizes

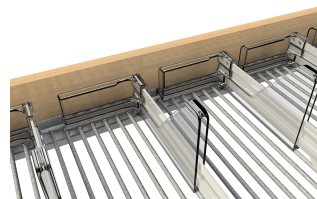

Support Bridge retains crook in correct position when in operation

Soft Handle used to easily pull and push bottle crook

Bridge device snaps into integral T-Rail and allows any width product to be accommodated

Front Riser is fitted to existing shelf and has channels to add epos or promotional messages

Metal Crook ensures stability
